

Trans Africa

DOCUSERIES

A 25 000 km road trip through Africa with 4 German couples and 1 Austrian couple by Camper Van.

Africa - A continent full of mysteries. As we cross the continent from North to South, from Tunis to Cape Town, we pass endless deserts, tropical rain forests, wide savannahs, crossed mountain ridges and river beds. We meet people of different tribes and get into their rites and living habits. We face problems with the van and everything turned out different to what we expected. We started with 4 other vehicles and stayed behind. Africa offers original culture and nature, that means that we, a group of people with their camper vans, leave civilization as we know it from Europe, America and Australia. We get in touch with unknown ways of living and fight the very bad road conditions on our way. We do not stay in hotels, but in our camper vans on campsites or in the very unique wilderness. Join us in our HD adventure. **Itinerary:** Tunisia, Libya, Egypt, Sudan, Ethiopia, Kenya, Uganda, Tanzania, Malawi, Zambia, Namibia, South Africa.
