Chad, Mat, Mylène, Mathieu, Alessandra and the others dream, for the most part, of becoming great starred chefs when they enroll at the Institut de tourisme et d'hôtellerie du Québec (ITHQ). Before wearing the ultimate hat, they must first learn the basics, develop their creativity, respect high standards of hygiene and safety, succeed in internships here and abroad and impress their teachers, who are sometimes funny, sometimes serious, always demanding.

In 10 episodes, see students from 3 cohorts of 1st, 2nd and 3rd sessions of the ITHQ, one of the most respected institutions in the field, evolve, fraternize with each other, experience failures, celebrate successes and especially get their hands dirty in the observation series *Future Chefs*!
