

EVEREST: HEROES, INVADERS & GREEN HOPE

*Three powerful documentaries on courage,
controversy and conservation*

LADY EVEREST

*"The woman who defied the impossible
– celebrating 50 years since Junko
Tabei's historic Everest summit!"*

First woman to summit Everest.
50 years later, her historic climb still
inspires. Pioneer for women
and defender of the mountains.

EVEREST INVADERS

*"When the highest peak becomes
the world's highest dump"*

Reinhold Messner exposes how
Everest is overrun by mass tourism,
pollution and chaos.

EVEREST GREEN

"Cleaning the top of the world"

A daring expedition removes
4 tons of waste, revealing an urgent
environmental and human crisis.

SPECIAL ENVIRONMENT COLLECTION

For broadcasters seeking premium documentaries on women, adventure, and environmental urgency.

LADY EVEREST

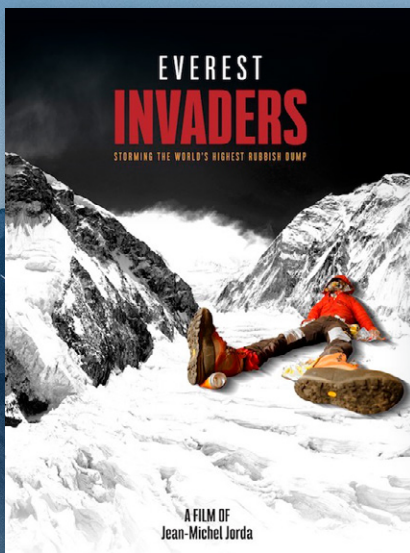

1 x 60' | Documentary | Biography, History | 2026 | EN, Spa SbtI, FR SbtI | HD

"2025 marks the 50th anniversary of Junko Tabei's historic summit of Everest, a milestone celebrated worldwide."

On May 16, 1975, Junko Tabei became the first woman to summit Everest, days after surviving an avalanche. In 2025, we celebrate the 50th anniversary of her historic climb. Defying Japan's norms, she founded the Women's Climbing Club, achieved many firsts, and championed mountain conservation, inspiring generations.

EVEREST INVADERS

1 x 60' | Environmental, Social Issues | 2023 | SPA, ENG, FR | HD, 4K

Reinhold Messner witnesses Everest's transformation into a tourist playground and the world's highest garbage dump. Modern climbers are urbanizing the mountains, causing pollution and threatening fragile ecosystems. This documentary exposes the environmental and social cost of mass mountaineering at the world's tallest peaks.

EVEREST GREEN

1 x 60' | Environmental, Expedition, Social Impact | 2017 | ENG, FR | HD

In 2017, ten sherpas removed 4 tons of waste from Everest's slopes, highlighting the urgent need for responsible mountaineering. From the summit to Kathmandu's open dumps, Everest Green exposes a tragic environmental and human reality, showing the clash between mountain values and Himalayan pollution.
