

PRESS RELEASE - For immediate release

RDM Vidéo renews its confidence in HG Distribution and acquires 13 new Quebec programs for the French market

Following the commercial success of five programs released in 2025, the French distributor expands its partnership with HG Distribution.

Montreal, June 16, 2026 — HG Distribution is proud to announce a major agreement with RDM Vidéo, a leading French distributor and publisher, for the representation of thirteen (13) Quebec programs across France. This new deal builds on the successful partnership launched in 2025 and reflects the growing international reach of Quebec content on the European market.

Building on the success of 2025

In 2025, RDM Vidéo acquired and successfully released five programs represented by HG Distribution: *L'Expo idéale*, *Lotus et Cali*, *Marc en peluche*, *Le 422* and the collection *RéCréations*. The strong commercial and critical performance of these productions quickly convinced our French partner to expand its Quebec catalog with a substantial new round of acquisitions.

Thirteen new programs for French audiences

The 2026 agreement covers the following titles: *La Terre appelle Mathilde*, *Créatures microscopiques*, *Comme dans l'espace*, *Les Inventifs*, *Le monde selon...*, *NIP*, *La science de l'art*, *La vie en quatre temps*, *Kapsur*, *Ma traversée*, *Rires du monde*, *IA : Être ou ne pas être* and *Sexe + Techno*. These documentary and factual programs span a broad range of themes — science, arts, society, technology and the major issues of our time — and are designed for curious and discerning audiences.

About RDM Vidéo

RDM Vidéo is a French distributor and publisher specializing in documentary and educational audiovisual programs. The company produces and markets DVDs and documentary films distributed to specialty bookstores, cultural institutions, VOD platforms and community organizations across France. Listed in professional, institutional and educational directories, RDM Vidéo plays a key role in bringing quality content to French-speaking European audiences.

About HG Distribution

For nearly two decades, HG Distribution has established itself as a trusted partner for independent producers, managing the international distribution of premium content to broadcasters and platforms worldwide. With a diversified catalog and the confidence of more than 100 producers, the company is built on a tailored approach and on values of authenticity, integrity and service excellence. HG Distribution offers content for television, streaming, VOD, mobile and emerging platforms.

AI: To be or not to be

2022-2023

Between ethics and technological (r)evolution, the series attempts to define the line that separates the human from the machine. Science journalist Matthieu Dugal sets out to create his digital double by drawing on his data. He meets with scientists and researchers to better understand the exponential evolution of AI and its implications in our daily lives.

Ma traversée

2023

A personal quest filmed over 20 years, the film recounts the racial issues linked to the notion of white privilege that have punctuated the director's life in three French-speaking societies: Guadeloupe, France and Quebec. From her own story emerges a broader narrative of colonization, assimilation, integration, and the social advantages associated with ethno-racial origin and their impact today.

Life's Rituals

2017-2018

In India, birth is celebrated by baby tossing. Coming of Age in Israel is marked by a Bar Mitzvah. Cambodian weddings last three days and three nights. And anyone who has witnessed a funeral in New Orleans knows what a significant role jazz plays in death.

Birth, Coming of Age, Love and Death. These are the four cornerstones of life and are recognized in many different ways from one culture to another. Over the course of the series, we're introduced to 18 different countries and 18 different customs and rituals that are steeped in beautiful, meaningful and centuries old tradition.

This docuseries reveals how these rituals are intrinsically tied to the most important moments in our lives.
